About **MAKUSTIK MUSIC**

In 2021, two friends named Andi and Theo decided to form an acoustic group called Makustik Music. Adi played the guitar, while Theo was on the vocalist. They also have a friend of friends called Bintang and Dave. The four friends quickly bonded over their shared love of music. They would often practice together for hours, playing covers of their favorite songs.

In the beginning, Makustik Music was played at small events and cafes in Medan. But as they gained more experience and their reputation grew, they began to play at larger venues.

In 2023, Makustik Music is now one of the most popular enough acoustic groups in Medan. They have played at over 20 cafes and food courts in the city. They are also planning to expand their reach to other parts of Indonesia, including Java, and outside the province of North Sumatra.

We'll be featuring a different local musician every week, so you can always find something cool to listen to. Whether you're looking for something relaxing or upbeat, we have the perfect song to accompany your coffee break.

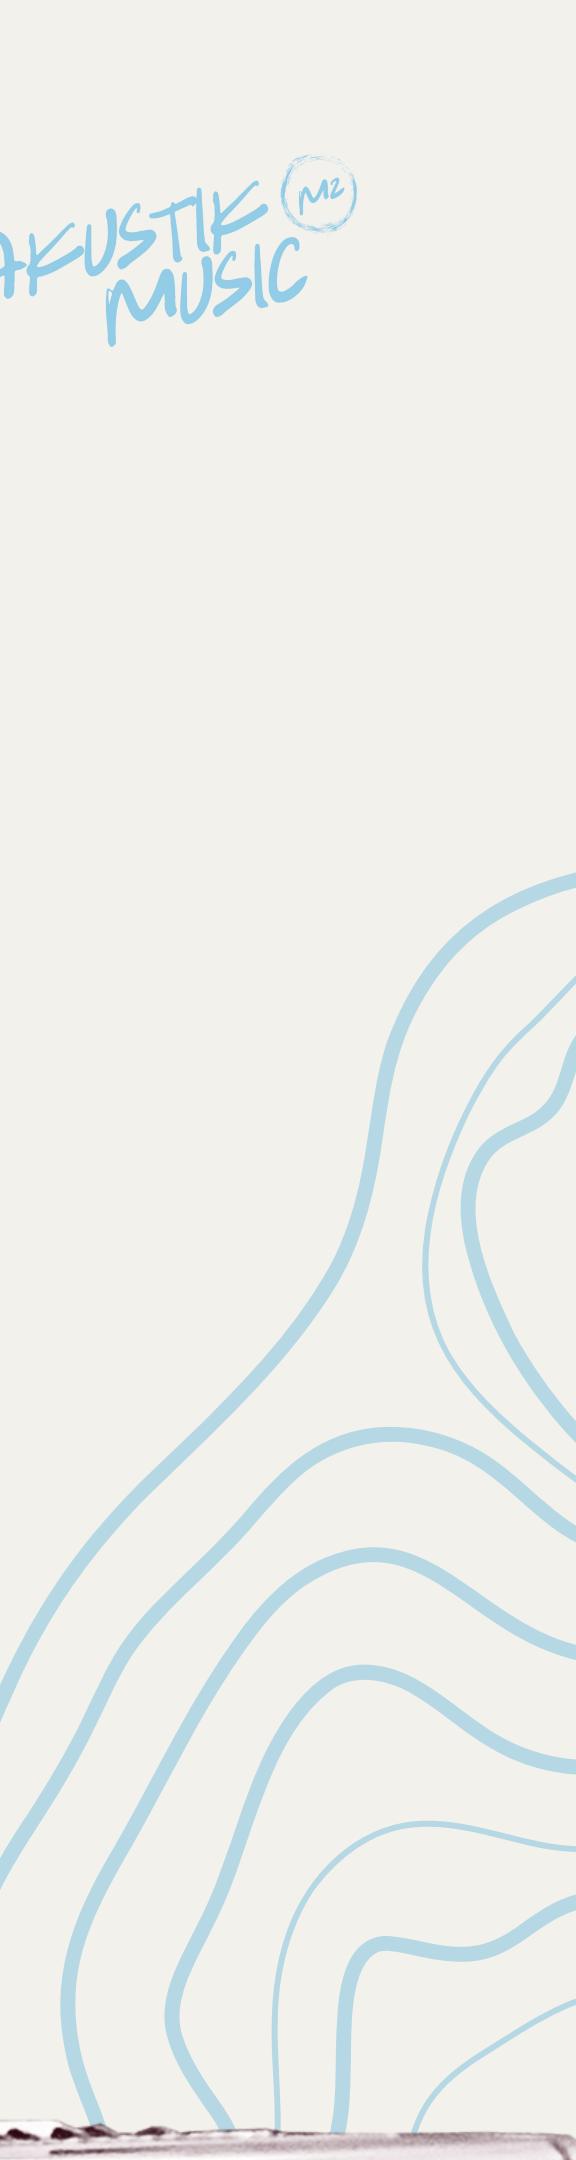

Makustik Music is more than just an acoustic band. They are a family. They have shared many laughs and tears. They have also supported each other through thick and thin. They are all passionate about music, and they are all determined to make Makustik Music a success.

One of the things that makes Makustik Music so special is its ability to connect with its audience. They are not just playing music; they are telling stories. They are sharing their emotions and their experiences. This is what makes their music so relatable and so powerful.
